

EDILMAR FLORES

WordPress & Frontend Developer

Iloilo City, Philippines | 0945 877 7511 | edilmarwpdev@gmail.com | edilmarwp.vercel.app

PROFESSIONAL SUMMARY

Results-driven Visual and Frontend Web Developer with over 3 years of hands-on experience designing, deploying, and programmatically customizing high-converting websites and e-commerce stores. Expert in combining visual page builders (Elementor, Framer, Divi) with custom frontend and backend code (PHP, JavaScript, HTML5/CSS3, jQuery) to bypass layout limitations and build highly bespoke digital features. Proven track record in cPanel administration, database troubleshooting, DNS configuration, and optimizing checkout workflows for global remote clients.

CORE COMPETENCIES

- Programming & Core Web Tech: PHP, JavaScript, jQuery, HTML5, CSS3 (Flexbox/Grid layout logic)
- Visual Development: WordPress, Framer (Stacks & Components), Elementor Pro, Divi, WPBakery
- E-Commerce Solutions: WooCommerce architecture, custom checkout pipelines, payment gateway integrations, template customization
- Infrastructure & Hosting: cPanel administration, DNS/Nameserver configurations, Cloudflare setup, security plugin deployment, zero-downtime website migrations
- Performance & Data: Technical SEO, Schema markup, Google Analytics 4 (GA4), Google Search Console, core web vitals optimization

FREELANCE & PROJECT EXPERIENCE

Junior Web Developer, Eternus Global BPO OPC

16 Mar 2022 – 31 Oct 2025

Project-Based

- SEO & Analytics: on-page SEO, schema markup, meta optimization, Google Analytics, Search Console.
- Developed, coded, and deployed highly responsive, custom-built web assets for international B2B and B2C clients utilizing WordPress, Elementor, and Divi.
- Wrote custom PHP snippets and jQuery functions to extend native WordPress plugin functionalities, modify core theme files safely via child themes, and create tailored user interactions.
- Streamlined design-to-production workflows by translating design mockups into pixel-perfect web interfaces using raw HTML/CSS styling alongside modern visual canvas frameworks.
- Executed backend infrastructure setups, handling seamless cPanel deployments, complex database troubleshooting, DNS configurations, and secure server-to-server website migrations.
- Built and optimized WooCommerce ecosystems, utilizing custom hooks and code overrides to streamline product archives and minimize checkout page abandonment.

Web & Visual Developer (Freelance Project Highlights)

16 Mar 2022 – 31 Oct 2025

- Engineered 15+ custom client websites spanning retail, digital services, and hospitality sectors, leveraging custom JavaScript to execute advanced layout animations and dynamic UI states.
- Audited, fortified, and speed-optimized client websites, writing custom CSS overrides to reduce plugin dependency, minify style assets, and protect endpoints from common vulnerabilities.
- Configured data tracking frameworks utilizing Google Analytics to provide clients with automated, data-driven insights on user behavior and platform interaction.

EDUCATION & CERTIFICATIONS

- Bachelor of Science in Information Technology (BSIT) – Expected June 2026 | Iloilo State University of Fisheries Science and Technology
- Endpoint Security & Intro to Cybersecurity Certificates – Cisco Networking Academy
- Computer Servicing NC II – Technical Education and Skills Development Authority (TESDA)
