EDILMAR FLORES

Technical SEO Specialist | WordPress & Frontend Developer

Iloilo City, Philippines | 0945 877 7511 | edilmarwpdev@gmail.com | edilmarwp.vercel.app

PROFESSIONAL SUMMARY

Technical SEO and web implementation specialist with 3+ years of hands-on experience, built on real client projects while studying full-time from Grade 12 through college. Finds site issues and fixes them directly in code: technical and on-page SEO, keyword research, Schema.org/JSON-LD, Core Web Vitals, and frontend development (HTML, CSS, JavaScript, jQuery, PHP, MySQL) across WordPress, WooCommerce, Shopify, Webflow, Elementor, Divi and Framer. Delivered work for 15+ international B2B and B2C clients. Uses AI-assisted coding (Claude Code, Cursor, Codex) and tests every change before it ships.

CORE COMPETENCIES

- **Technical & On-Page SEO:** crawlability, indexability, robots.txt, XML sitemaps, canonicals, redirects and status codes, site architecture, internal linking, metadata, headings, keyword research, Core Web Vitals
- **Structured Data:** Schema.org markup and JSON-LD implementation and validation
- **SEO & Audit Tools:** Google Search Console, Bing Webmaster Tools, GA4, PageSpeed Insights, Lighthouse, Screaming Frog
- **CMS & Builders:** WordPress, WooCommerce, Shopify, Webflow, Elementor Pro, Divi, WPBakery, Framer
- **Development:** HTML5, CSS3 (Flexbox/Grid), JavaScript, jQuery, PHP snippets, child themes, WooCommerce hooks and overrides
- **Databases:** MySQL, phpMyAdmin, SQL queries, WordPress database structure, backups and restores, migration search-and-replace
- **Infrastructure & AI Tools:** cPanel, DNS, Cloudflare, security plugins, zero-downtime migrations; Claude Code, Cursor, Codex

PROFESSIONAL EXPERIENCE

SEO Specialist (Freelance) | 13 Feb 2026 – 20 Mar 2026

- Researched target keywords and applied them across website titles, meta descriptions, headings and page content to improve search rankings.
- Optimized on-page elements and tracked keyword performance and indexing using Google Search Console and Google Analytics.

Junior Web Developer, Eternus Global BPO OPC | 16 Mar 2022 – 31 Oct 2025 | Project-Based, completed while studying full-time

- Implemented technical and on-page SEO directly on client sites (metadata, headings, internal linking, canonicals, redirects, robots.txt, XML sitemaps, Schema.org/JSON-LD), verified in Search Console, Bing Webmaster Tools and GA4.
- Audited and speed-optimized client sites with Lighthouse, PageSpeed Insights and Screaming Frog; used custom CSS overrides to reduce plugin dependency, minify styles and improve Core Web Vitals.
- Built 15+ custom websites in retail, digital services and hospitality, turning design mockups into responsive pages with HTML, CSS, WordPress, Elementor, Divi and custom JavaScript.
- Built and optimized WooCommerce stores with custom hooks and code overrides, improving product archives and reducing checkout abandonment.

- Managed WordPress databases in phpMyAdmin and MySQL: ran SQL queries to fix URLs after migrations, repaired tables, and handled backups and restores before deployments.
- Wrote custom PHP snippets and jQuery functions to extend plugins; modified themes safely through child themes.
- Handled cPanel deployments, DNS configuration and secure server-to-server migrations; set up GA4 tracking and reporting for clients.
- Used AI-assisted coding to deliver faster across different client stacks, inspecting, testing and debugging all generated code before deployment.

EDUCATION & CERTIFICATIONS

- **BS in Information Technology**, Iloilo State University of Fisheries Science and Technology | Graduated July 2026 (worked as a web developer throughout senior high school and college)
